## New headquarter for global expansion

- Xinyi Glass ("Xinyi") has acquired a plot of land with a total site area of 13,675 sqm in Qianhai, where it intends to build a new headquarters to cope with global development.
- On the core operation, management expects the margins uptrend will likely be sustainable through 2017, with increasing contributions coming from its Malaysia project.
- Reiterate BUY and maintain price target of HKD8.0, representing 9.0x FY17E PER.

**Potential benefits of establishing new headquarters in Qianhai.** Xinyi is paying RMB30,096/sqm according to the construction plan with a total GFA of 62,000sqm, assuming a plot ratio of 4.53 to the existing site area. According to management, this site costs only half of the current market value of the surrounding commercial buildings. Based on the monthly market rent in Shenzhen's Qianhai financial district, this project could offer an estimated 7.5% yield if we assume an all-in investment cost of RMB40,000/sqm. Xinyi plans to set up its new headquarters here to oversee its China and Malaysia operations.

**Project to be fully funded by cash on hand.** According to CEO Mr. Tung Ching Sai, the investment would be carried over three years and will be fully funded by the cash on hand, and it won't change the existing dividend policy. Based on our estimation, net gearing would increase to 34.9% from 23.9% as at end-2017, but remain healthy compared to the historical level.

**Expect solid margins for major products in 2H16.** Management guided that the rising costs would be passed onto the end-users through higher glass product prices. The glass futures price on the Zhengzhou Commodity Exchange has gained 16% since the fourth quarter. By segments, float glass and construction glass posted record high sales volumes, while auto glass margins have further improved on higher capacity utilisation.

**Increasing contributions to come from Malaysia project in 2017.** Xinyi's Malaysia high-quality float glass project is scheduled to commence production in 1Q17. Management expects strong growth potentials for the market as the supply shortage of float glass in Malaysia shall remain as well as rising import demand from Taiwan.

**Maintain BUY rating and PT of HKD8.0.** XYG is trading at the low-end of the PBR band during 2011 and 2016. As we have no major change on our estimate. Pegging to 2.0x FY17E PBR, we maintain our price target at HKD8.0, representing merely 9.0x FY17E PER and an estimated dividend yield of 7.3% in FY17F.
